

MANAGEMENT AND
COORDINATION OF **FIRE**
LOSS CLAIMS

SM SAVALL is a firmly-established company with long experience in the comprehensive management and settlement of insurance claims.

We always seek excellence in the services we provide. We employ the finest professionals and the most innovative technological means to adapt to the needs of each different client.

We manage and coordinate our specialised teams efficiently in order to achieve the best results, because rapid action is of the essence so that a company can resume its activity as soon as possible and minimise the damage caused by the loss.

HOW WE RESPOND TO A LOSS

We establish a protocol to minimise the time required to complete our intervention and in this way reduce the impact on the company's business and activity.

When a loss occurs, the company appoints an expert.

We help you to appoint an assessor to take over these duties.

Study of the insurance policy and verification of loss.

Application of valuation techniques and analysis of resources.

SM SAVALL begins working to repair damaged spaces.

We organise the work plan.

We develop the engineering project.

Evaluation of estimates with the company.

Our specialists carry out cleaning and demolition work.

We supervise and monitor the process of rebuilding the damaged unit.

RECOVERY OF SPACES

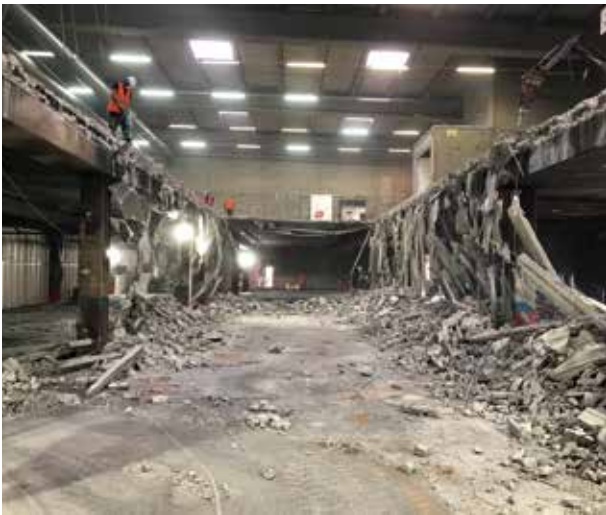

“We act immediately, beginning on the same day of the accident or within 24 hours”

EXPERTS IN RESOLVING FIRE DAMAGE CLAIMS

SM SAVALL specialises in recovering industrial units damaged by fire. We act quickly and efficiently, providing customised advice and assistance.

Management and full cooperation in the various professional fields involved, all to ensure the best results and the maximum satisfaction of our clients.

We manage the reconstruction of fire damaged spaces from start to finish.

CUSTOMISED FINANCING

SM SAVALL finances all your VAT for up to 6 months. We adapt to the specific needs of each different company by financing VAT payments. Accordingly, the insured party does not have to pay money in advance and can continue their activity without suffering any damage.

COMPREHENSIVE CLAIMS SERVICE

IMMEDIATE, SAFE REMOVAL OF ASBESTOS

SM SAVALL is certified for the removal of asbestos at sites damaged by fire. Our company is registered with the RERA register of companies with asbestos risk (41/AB/17), which ensures that we comply with strict safety and hygiene and environmental regulations.

In accordance with current legislation, our technical team follows the appropriate safety protocols to ensure that the damaged area is completely decontaminated from all hazardous waste.

We proceed to remove asbestos immediately and take waste to the authorised recycling plant, always following strict safety controls and leaving the site free from all harmful products.

We have a both highly specialised team and the technical resources required to remove asbestos.

We follow a strict action protocol to ensure the correct dismantling of asbestos roofs.

We have obtained all the necessary certifications and accreditations required under current legislation.
